## Objectives

A systematic approach to family counseling based upon the Individual Psychology of Alfred Adler will be presented. **The primary means of teaching the workshop will be through a live counseling demonstration with a family requesting help.** The workshop will also include lecture and experiential activities, including use of the most memorable observation, and group discussion.

**9:00 AM - 11:00 AM** To help participants increase their knowledge of family counseling theory including the teleological nature of behavior, the influence of superiority/inferiority relationships, and the holistic interpretation of behavior.

### 30 Minute Break

**11:30 AM - 1:30 PM** To help participants be able to apply family counseling techniques including systematic exploration of family interaction and use of the most memorable observation as a means of increasing parent's knowledge of their belief system as it related to their choice of parenting style.

## About WPSAP

### About the Local Society: The Western Pennsylvania Society for Adlerian

Psychology promotes the educational theories and practical techniques of Dr. Alfred Adler, a leading theorist in the field of mental health and the founder of child guidance centers. His theory of Individual Psychology promotes a holistic approach for each individual and is based on a model of growth. His teachings are applicable to parent/child relationships and counseling for individuals and families. We are pleased to host this NASAP workshop.
